

Accredited Christian Science Nursing Facilities/Organizations

Christian Science nursing facilities offer a sanctuary where an individual's desire to rely on Christian Science treatment for healing is upheld by the spiritual reassurance and practical, physical care given by Christian Science nurses.

Visiting Christian Science Nursing Services provide Christian Science nursing services for short home visits, usually of a few hours or less. In the list of accredited organizations, some are identified by name as visiting services. Of the remaining organizations, a number offer both home visits and facility care.

Each of these organizations listed in this section is non-profit, independently operated, and is accredited by The Commission for Accreditation of Christian Science Nursing Organizations/Facilities, Inc. You can find more information about each facility at the Commission's website csncommission.org. Each facility sets its own fees. Please contact the organization directly for information about services, fees, and payment options.
