

Christian Science Organizations at Colleges and Universities

Christian Science Organizations in Colleges and Universities around the world are made up of students, faculty, and instructors who actively strive to connect with members of their campus who seek a spiritual perspective. Their activities are letting the light of Christian healing shine on campus needs. These organizations are formed and maintained in accordance with Article XXIII, Section 8, of *The Manual of The Mother Church* (pg.73).

Privilege of Members. Sect. 8. Members in good standing with The Mother Church, who are members of the faculty, instructors, or students in any university or college, can form and conduct a Christian Science organization at such university or college, provided its rules so permit.

Also members in good standing with The Mother Church, who are graduates of said university or college, may become members of the organization by application to, and by the unanimous vote of, the active members present, if the rules of the university or college so permit. When called for, a member of the Board of Lectureship may lecture for said university or college organization.
